The Gunnedah based Daracon Croft Racing Dirt Late Model Team are looking forward to being back at Tyrepower Parramatta City Raceway (NSW) Saturday February 13.

Having only contested one meeting on the fast Parramatta clay this season, the Daracon Croft Racing Team are planning to use the opportunity to fine tune their car setup prior to the rescheduled Tyrepower Late Model Grand National.

“While it was disappointing to be standing in the Parramatta pits when the rain came down a few weeks ago washing out the Grand National, there is a positive side in that we now have more track time to work on our setup” said Ken Croft.

“Our heavy workload away from the sport has really played havoc with our schedule, meaning we have only had one run at Parramatta this year. We ran 4<sup>th</sup> in the Main on that occasion, and learnt a few things, but the more time I spend behind the wheel between now and the Grand National can only aid our preparation”.

“We know the setup we ran in last years Casio G Shock Gold Cup worked well, and ideally we would like to use those settings again this year, but the Parramatta surface

can be tricky, so you really have to be on your game and have a number of options available”.

“Hopefully we will come through Saturday nights Round of the East Coast Late Model Series without any problems, gain some valuable setup information, and bank some solid results” concluded Croft.
